**Application Instructions**

1. **Applicant must contact Columbia REA at (509) 526-4041 for pre-approval**
2. **Irrigation system upgrades and variable frequency drives must be installed at an address served by Columbia REA**
3. **Complete and sign Rebate Application**
4. **Provide a copy of your Vendor invoice(s) detailing equipment purchased**
5. **Identify your field(s), crop(s) and acres irrigated by providing a map of the fields and acreage**
6. **Return all forms and application to:**  
 Columbia REA, 2929 Melrose Street, Walla Walla, WA 99362  
*\*\*Rebate(s) will be issued in the form of a check to the member's name on the Columbia REA account*

**Irrigation System Upgrades REBATE INFORMATION**

The new sprinkler nozzles flow rate must be the same or lower than those replaced. Stationary systems are not eligible for this program due to the number of sprinklers per acre.

|    | Measure Description                                                                                                                                      | Rebate per Unit               | BPA Ref #  | Qty | Total |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------|------------|-----|-------|
| 1  | New flow controlling type nozzle for impact sprinklers                                                                                                   | \$4.00/nozzle <sup>1</sup>    | AIRHA40019 |     |       |
| 2  | Rebuilt or new impact sprinklers.                                                                                                                        | \$3.75/sprinkler <sup>1</sup> | AIRHA40016 |     |       |
| 3  | New nozzle for impact sprinkler replacing existing worn nozzle of same flow rate or less <sup>2</sup> .                                                  | \$1.50/nozzle <sup>1</sup>    | AIRHA40011 |     |       |
| 4  | New rotating type sprinklers that replace impact sprinklers. (Entire pivot <sup>2</sup> must be upgraded and flow may not increase.)                     | \$4.00/sprinkler <sup>1</sup> | AIRHA40017 |     |       |
| 5  | New gasket for wheel lines, hand lines or portable main line                                                                                             | \$2.75/gasket                 | AIRHA40003 |     |       |
| 6  | New low-pressure regulators. (Entire pivot <sup>3</sup> must be upgraded.)                                                                               | \$5.00/regulator <sup>1</sup> | AIRHA40015 |     |       |
| 7  | New rotating type sprinklers that replace low-pressure sprinklers. (Entire pivot <sup>3</sup> must be upgraded. Flow may not be increased.) <sup>4</sup> | \$4.00/sprinkler <sup>1</sup> | AIRHA40018 |     |       |
| 8  | New multiple configuration nozzles for low-pressure pivot <sup>3</sup> sprinklers                                                                        | \$3.00/sprinkler <sup>1</sup> | AIRHA40013 |     |       |
| 9  | New multi-trajectory sprays that replace impact sprinklers (Entire pivot <sup>3</sup> must be upgraded. Flow may not be increased.)                      | \$4.00/sprinkler <sup>1</sup> | AIRHA40008 |     |       |
| 10 | New multi-trajectory sprays that replace low pressure sprinklers (Entire pivot <sup>3</sup> must be upgraded. Flow may not be increased.) <sup>4</sup>   | \$1.00/sprinkler <sup>1</sup> | AIRHA40009 |     |       |
| 11 | New drain gaskets for wheel lines, hand lines, or pivots <sup>3</sup>                                                                                    | \$1.00/drain                  | AIRHA40001 |     |       |
| 12 | New hubs for wheel-lines                                                                                                                                 | \$14.50/hub                   | AIRHA40006 |     |       |
| 13 | New "goose neck" elbow for new drop tubes                                                                                                                | \$1.65/goose neck             | AIRHA40005 |     |       |
| 14 | New drop tube for low-pressure pivot <sup>3</sup> sprinklers (min. 3 feet length)                                                                        | \$3.00/drop tube              | AIRHA40002 |     |       |
| 15 | New center pivot base boot gasket                                                                                                                        | \$175.00/pivot                | AIRHA40004 |     |       |
| 16 | Cut and pipe press repair of leaking hand lines, wheel lines, and portable mainline                                                                      | \$10.00/pipe section          | AIRHA40014 |     |       |
| 17 | Rebuilt or new wheel-line leveler (self leveler which automatically keeps the sprinkler heads on an Irrigation wheel line in a steady upright position)  | \$0.75/leveler                | AIRHA40007 |     |       |
|    |                                                                                                                                                          | <b>TOTALS</b>                 |            |     |       |

<sup>1</sup> Rebate is limited to two units per sprinkled acre for solid set sprinklers.

<sup>2</sup> The division of the equipment to sprinkler and nozzle allows the nozzle to be replaced separately from the sprinkler.

<sup>3</sup> Lateral moves are also included.

<sup>4</sup> The separation of the equipment allows upgrade of the regulators if new rotating sprinklers are already in place or the installation of new rotating sprinklers if low-flow regulators are already in place.

**Note: All rebates are capped at 70% of actual cost or the approved amount, whichever is less.**

**Variable Frequency Drives REBATE INFORMATION**

*Each VFD must qualify individually and be submitted individually (i.e., VFD's may not be combined or divided.) BPA shall reimburse \$60.00 per installed hp.*

Documentation Requirements

1. Application type (turbine pumps for well or booster application) \_\_\_\_\_
2. Operational hours per year \_\_\_\_\_
3. Pre-install billing history for three full seasons prior to install \_\_\_\_\_
4. Post-install billing history for one full season after install \_\_\_\_\_
5. Utility meter number \_\_\_\_\_
6. Pump Total Dynamic Head (TDH) rating and gallon-per-minute (GPM) flow rating \_\_\_\_\_
7. TDH differences (as a percentage of total dynamic head) \_\_\_\_\_
8. Flow requirements changes (as a percentage of total flow rating) \_\_\_\_\_
9. Acres under irrigation system \_\_\_\_\_
10. Estimated site savings kWh \_\_\_\_\_
11. Name and version of software or model used to estimate kWh savings \_\_\_\_\_
12. Reimbursement Level \_\_\_\_\_

*By signing below, I certify that all information listed above is true and correct and the installation address is served by Columbia REA. I attest that I have not previously applied for or received a rebate for the irrigation system upgrade(s) or variable frequency drive(s) listed above. I understand that Columbia REA reserves the right to verify installation of the listed irrigation system upgrade(s) or variable frequency drive(s) and that completion of this form does not guarantee a rebate. I acknowledge that Columbia REA's Irrigation Rebate Program is subject to change, and funding availability.*

Applicant Signature \_\_\_\_\_ Date \_\_\_\_\_

**\*All rebate amounts are dependent upon AEEP specifications at the time the form is received by Columbia REA**

**Note: All rebates are capped at 70% of actual cost or the approved amount, whichever is less.**
