### Applicant Approval and Certification

By signing below, I certify that all information listed on this document is true and correct and the residential installation address is in the Columbia REA service territory. I attest that I have not previously applied for or received a rebate for the item(s) listed above. I understand that Columbia REA reserves the right to verify installation of the listed item(s) and that completion of this form does not guarantee my rebate. I acknowledge that Columbia REA's Rebate Program is subject to change and funding availability and may be in the form of a billing credit if my bill is past due.

minimum requirements

#### DUCTLESS HEAT PUMP / MINI-SPLIT

Ductless from Electric Heat

S/F Existing

\$ 920

RHVHS13022

Manufactured Existing

\$ 920

RHVHS13001

**Ductless Notes:**

Only one rebate per residence.

Space cannot be connected to a ducted Heat Pump system.

Zonal electric or forced-air electric resistance heat as the primary heating source only.

Not eligible for replacing Wood, Oil, Propane, Gas primary heat or existing Ductless.

## TERMS, CONDITIONS AND INFORMATION

All rebates are **capped at 70%** of total actual job cost or the approved amount, whichever is less.

### **\*SF - Single Family**

Single Family includes buildings with four or fewer residences.

Rebates are available at one or possibly more per residence. For example, homes that have two separately ducted heat pump systems qualify for 2 rebates when both systems are being replaced. Consult a Columbia REA Energy Specialist for multiple rebate approval.

### **\*\*\*Customer Invoices**

Customer Invoices must reflect the following:

1. The **customer name** and **address** of install
2. The **make and model** of each piece of equipment
3. The total **cost** to the customer

### **Multi-Family**

Multi-family includes buildings with more than four residences and three or fewer stories. Pre-approval by Columbia REA is required.

The word “**Home**” as used in this document refers to the electrically heated living space within the residence. It does not include attached garages, unheated basements and porch areas or out-buildings.

All systems must be **installed** or approved by a licensed contractor, in accordance with manufacturer specifications, including adherence to proper refrigerant charging. The contractor must be on the **Columbia REA approved contractor list** or have received manufacturer approved installation training.

**Zonal heating** includes electric, non-ducted: ceiling cable, wall, baseboard, plug-in and an electric boiler/water heater attached to a zoned hydronic floor heating system.

**Ductless Heat Pumps (DHP or Mini-Split)** rebates are not available for spaces conditioned with **centrally ducted systems**. Existing single-family residential additions where the primary electric or nonelectric system’s **duct work has not been extended** to the addition and/or where the current heating source in the addition is electric zonal are eligible for a **Ductless Heat Pump**.

Multi-head **Ductless Heat Pumps**, multi ducted mini-splits and combination installs in New & Existing Manufactured Homes or New Single Family Homes may be eligible for a single indoor head DHP or single ducted DHP incentive.
